

JAMES HARDING

Sr. Software Engineer

PROFILE

Father of 3 (1 girl and 2 boys) that I love with all my heart. In work I am technical & meticulous. An expert at unifying hardware drivers with user interfaces in multi-threaded applications.

ACHIEVEMENTS:

Developed process instrumentation that runs software 24/7/365 in hundreds of water processing plants across the globe.

Developed a virtual reality simulation for Optera Group that won the Colorado Business Marketing award in April of 2016.
